New German Stamps For Universal Use In All Occupied Zones

From Mr. S. L. Bayer of the Penny Black Stamp Company of New York we have a set of the new German stamps of 1946, first permanent German issue since the Nazi collapse. These stamps are for use in all four occupied zones and will probably replace as in Austria and Italy the AMG issues that have been in use as well as the many local issues.

The set consists of 19 values all identical in design as illustrated.

Values are 1pf black, 3pf light brown, 4pf slate, 5pf green, 6pf violet, 8pf red orange, 10pf chocolate, 12pf red, 15pf purple brown, 16pf slate green, 20pf light blue, 24pf yellow brown, 25pf bright blue, 30pf olive, 40pf magenta, 42pf yellow green, 50pf slate green, 60pf orange and 80pf dull blue.

It was originally announced that the new set would be issued about the middle of January but it is believed that the first day for this set was February 11th.

Mr. Bayer also advises that a new high value in the Brunswick printing of the AMG stamps is at hand a 1 Reichsmark olive green, the size of the stamp is even larger than the high Pfennig values of the regular set.

Stamp Show Offers Free Admission, Free Eats And Free Entertainment

The Austin Philatelic Club of Austin, Illinois is going after attendance at their annual exhibition to be held March 30, 31, in a big way. The club has filled the show windows of the town with a large poster display card which invites the public to come to the show and see the 200 frames of stamps that will be on display. A part of the poster is devoted to an announcement which clearly states, "Free Admission, Free Eats and Free Entertainment."

The show is to be held in the Masonic Temple at 241 N. Central Avenue.

10c 1879 - Re-entered Plate

Careful examination of this block of four 10c 1879 shows faint trace of a "hair line" secret mark on the upper left corner stamp. The other three stamps show normal secret marks.

A resume of some conclusions which were obtained from an examination of 20,000 10c stamps of the 1870, 1873 and 1879 issues was published serially in Pat Paragraphs in 1932 and was reprinted in pamphlet form. Stamps from the first Continental plates (Nos. 23 and 25) were found to have the normal secret mark - a crescent of definite thickness in the ornamental ball below the "E" of "POSTAGE."

Eventually plates 23 and 25 were replaced by plates 302 and 303 and all "hard paper" (Continental) impressions and the earlier "soft paper" (American) impressions from these plates also had the normal secret mark. One or both of the plates 302/303 were re-entered by the American Bank Note Company and late impressions contain stamps with the normal mark, or with a thin crescent ("hair line" secret mark), or with the secret mark nearly or entirely missing.

Pairs, strips and blocks showing various combinations of these three varieties are known. If enough multiples such as the block which is illustrated are found so that it becomes possible to reconstruct the plates, the numbers of each variety and their plate positions can be determined.

Popular Philatelic Columnist Out Of Army

Walter Kaner, well known stamp broadcaster and writer has been honorably discharged from the Army following 3 years of service in the European and Pacific theaters.

While serving with General McArthur's Headquarters in Tokyo, Kaner, under the radio name of "Tokyo Mose," broadcast a daily record-request program over the 18-stations of the Armed Forces Radio Network for the Allied Occupation Forces in Japan and Korea. Stories describing his activities as "Tokyo Mose" appeared in many American newspapers and magazines. In addition to his radio broadcasts, Kaner also wrote a "Broadway to Hollywood" column for "Stars and Stripes," Army newspaper in the Pacific.

Prior to assignment to Japan,

Kaner served with the 97th infantry Division in Germany, France, Czechoslovakia, Holland and Belgium.

Best known in philatelic circles for his stamp broadcasts aired in New York for six years, Kaner's popular "Stamp Man" program was also heard transcribed on 35 stations throughout the nation. His monthly cartoon of stamp oddities appeared in "Flash," "Sensation," "Spy Smasher" and other comic magazines. Articles and columns by Kaner were published in many stamp magazines.

He originated and directed the Treasury Department's drive to promote the collection of war stamps by the nation's philatelists. Kaner also originated and handled the USO "Stamps for Servicemen" campaign to supply service camps with stamp and philatelic material. Kaner's promotional column "Stamps for Victory" for the Treasury Department and "Stamps for Servicemen" for the USO were released regularly to nearly 1,000 newspapers and magazines.

B.N.A. Stamps Bring Over \$30,000 At Harmer Rooke & Company Sale

In a one-session sale, devoted entirely to the stamps of British North America, Harmer, Rooke and Co. 560 Fifth Ave., New York, N. Y. realized some very high prices on February 19, 1946. The high spot of the sale were seven complete sheets of Canadian proofs overprinted "Specimen," printed from the original plates. For these sheets the following prices were realized: lot #38 6p violet right pane of 100 overprinted "Specimen" in deep red \$1000, lot #40 6p purple left pane of 100 overprinted "Specimen" in orange \$1050, lot #43 10p blue sheet of 120 overprinted "Specimen" in deep red \$1200, lot #46 1/2p rose sheet of 120 overprinted "Specimen" in green \$1050, lot #47 5c red irregular part of sheet of 75 without "Specimen" \$1200, lot #48 5c red pane of 100 overprinted "Specimen" in black \$1100, lot #49 10c black brown sheet of 100 overprinted "Specimen" in deep red \$1100 and finally lot #50 12 1/2c green sheet of 100 overprinted "Specimen" in dark red \$1050.

The Canadian postage stamps started with the 1851 issue on laid paper, and some very high prices were realized. A vertical top margin strip of 3 (#1) tied on piece went for \$80, a very fine 6p violet (#2) for \$77.50 (\$50), a vertical pair of the 3p red on ribbed paper (#4) \$45 (\$50), a superb 6p purple black (#5) for \$47 (\$35), a very fine top margin copy of the same stamp in greenish black (#5b) \$52 (\$45), a very fine 10p blue 1855 issue (#7) \$65 (\$60), an exceptionally fine copy of the 1/2p rose issue 1857 (#8) \$85 (\$35) and another superb copy of the same stamp went for \$120. A very fine 7 1/2p green (#9) sold for \$110 (\$85) and another copy of the same stamp tied to cover for \$225. A very fine O block of 4 of the 1c brown red issue 1868-77 (#22) realized \$77.50 (\$40), a top margin horizontal pair of the 12 1/2c blue with part of imprint \$40 (\$20) a superb centered copy of the 1c yellow (#32) \$37 (\$15) and a well centered block of 4 of the 5c olive green (#42) sold for \$175.

Newfoundland stamps sold very well too. A complete sheet of 20 of the 8p scarlet vermilion (#8) sold for \$600, (\$600) a superb single copy of the same stamp \$90 (\$60). A block of 4 of the 2c green on white paper (#24a) realized \$35 (\$24) and an extremely well centered block of 4 of the 13c orange (#30) \$42 (\$32).

The entire days sale realized over \$30,000 and proved again that stamps in very fine condition tend to raise prices on British North American stamps growing in popularity from day to day.

H. R. Harmer, Inc. Sells New Records For Stamp Auctions

H. R. Harmer, Inc., appear to be following up the sale of the Roosevelt Collection with an absolute bevy of auctions in April. No sooner is the second Roosevelt Sale (April 1-2) completed than they are holding a special "Atex" auction at Atlantic City on April 6th. Back in New York they have a sale on April 9, 10—over 250 lots of U. S. just to start with—and they follow this on April 16, 17, 23, 24, with the Judge Levis Collection of 20th Century British Empire Mint, a collection they describe as the greatest of its kind ever to be offered. As the Collection, which is replete with errors and varieties, lists over 2,000 lots and the catalogue contains 20 plates, we are inclined to agree. A selection of the rarer items from this collection is illustrated in their announcements in this issue.

On Monday, April 22nd, prior to the second portion of the Levis Collection, they are offering a magnificent collection of United States 20th Century Mint, almost exclusively position blocks with many matched sets of plate numbers. The Collection is stated to catalogue over \$30,000, and will comprise only 150 to 200 lots so there must be some real gems included.

Still hard at it, they have a three-day auction scheduled for April 29-30 and May 1, General Properties with some very fine items of United States and a collection received from Canada. This amazing series of auctions, totaling 13 sessions in one month is surely a record for an auction house, either here or in London.

The First Postage Stamps Of Campione

Altho a translation of this article originally written by Carl Giger, is at hand from E. Luder and Company of Zurich, we reprint from the Philatelic Magazine, London, since the publication of the article is in better form than the copy we have received direct.

The following article is strictly based on facts and on considerations made after careful study of these issues. As a stamp collector my aim is to enlighten the matter from the philatelic point of view, leaving aside any commercial polemics, and to show some of the stamp-varieties I have found out.

On May 20th 1944 the Radio Beromunster (Swiss) broadcast the news that special stamps had been issued the same day in Cam-

First Day Cover Sales Are Booming Five Cent Roosevelt Sets New Record

News just at hand from Washington gives details of first day cover sales for several of the more recent issues and the figures are such as to make collectors realize that First Day Covers are becoming more and more popular. One thing that has helped popularize such covers is the very splendid cachets that have been produced by some of the leading dealers in covers of this type.

The wise collector should not hesitate to pay a few cents more for such covers as these finer cachets will always command a higher price than any of the crummy looking and cheap material still supplied by three dealers who are yet behind the times in production of fine cachets.

Due to the numerous first flights which have taken place lately, and the fact that there is a lull in new authorizations by the C. A. B., I think this would be a very appropriate time to give a revised listing of forthcoming first flights. This list will be as of March 15th, and as usual, an asterisk ("*") means the flight is expected to occur in the near future, while a # means that city has never received airmail service and therefore, an official cachet can be expected.

THERE ARE TWO SIDES TO ANY ARGUMENT

We are presenting one side of the argument by printing in full a letter that is just at hand from a collector who asks that we sign his initials only to the letter. Personally we like to see people put their name to anything they have to say, but we respect the wishes of this writer and present his letter below. When you have read his side of the argument, continue and see what we think of the same situation.

"As a subscriber to your valued paper and a stamp collector in a modest fashion, I would like to call to your attention a situation in the stamp world that could bear some cleaning up. That is the matter of dealers' buying and selling prices. The actions of a few 'shrewd' dealers, I am sure, does much to discourage stamp collecting. It goes without saying that it is good business to buy at a low price and sell at a high price—in fact, from a business standpoint, it is imperative to do so. However, this policy can be carried to the point where it ceases to be good business and becomes just plain robbery. As a point in case, I would like to cite two advertisements on the stamp page of the New York Sun of Friday, March 8. One dealer offers to sell full sheets of the U. S. Corregidor commemorative in good condition at \$3.00 per sheet. That, of course, is perfectly all right—if a stamp collector wants a sheet of these stamps at that price, he can buy it—if not, he doesn't have to. However, the glaring example is another ad on the same page under the 'Wanted' column, where another dealer says: 'Corregidor Sheets—Paying \$1.85 each.' Of course, here too, the argument could be used that if the collector thinks the price is too low, he doesn't have to sell.

Nevertheless, the wide divergence between the buying and selling prices indicates that either (A) the dealer selling the sheets at \$3.00 each in charging too much, or (B) the dealer offering to pay \$1.85 a sheet is not offering enough. Surely for a mint U. S. commemorative as recent as this Corregidor issue, there shouldn't be this wide divergence between the buying and selling price.

If these Corregidor sheets are only fetching \$1.85, surely they are not worth \$3.00 and if they are worth \$3.00 when sold, surely they are worth more than \$1.85 when bought by dealers. The buying figure of \$1.85 represents an advance of approximately 23 per cent over face value, while the selling price of \$3.00 represents an advance of 100 per cent over face. What happens to the remaining 77 per cent? Surely that 77 per cent is too excessive as a legitimate margin of profit, even with a wholesaler in the picture.

Another point I have also noticed in some dealings is the fact that dealers place considerable emphasis upon quality (fine centering, light cancellations, light hinging, etc) when buying, but they are not so emphatic about it when selling—usually asking a pretty stiff premium for extra fine material.

Of course, it goes without saying that the dealers are entitled to a margin of profit that will enable them to stay in business, but on the other hand, the collector is also entitled to a break and he shouldn't be subjected to a flim-flam between exceedingly high selling and low prices on the part of dealers."

Respectfully yours,

A. J. B.

In the first place, the two offers are by different dealers. A. J. B. might find that the dealer who is offering to buy at \$1.85 would sell at \$2.50 or even less while the dealer who is offering to sell at \$3.00 might buy at as much as \$2.25 or more. Comparisons of this nature are not accurate except we compare the buying and selling prices of the same party.

On the other hand, stamps are merchandise, but merchandise of a wholly different type than that as carried on the average store shelf. Stamps when exhausted at the source of supply are no longer available and price can only be governed by available supply. Demand increases price. Do not try to compare stamp prices with those of other commodities. As a matter of fact most all stamps are sold at a smaller margin of profit than are the usual run of trinkets and household supplies in retail stores.

Did you ever try to find out what markup goes on a rug that you might buy to carpet your floors?

Markups on merchandise are usually made in proportion to their turnover. Items such as cigarettes, sugar, canned goods etc. carry a much lower markup than goods which wear long and last for years.

Mr. A. J. B. seems to be a bit mixed in his arithmetic also for he seems to infer that there is a 77 per cent profit somewhere in the deal between a paying price of \$1.85 and a selling price of \$3.00. If he will take the price of \$1.85 as cost to the dealer and sell at \$3.00 he will find a profit of approximately 38 per cent which in our estimation is not too high for material of this nature.

A. J. B. can not figure the sheets at \$1.50 since none are available at that price. That was original cost at Washington and since they have gone off the Agency list, no more are available at such a figure and we can only consider the current wholesale price in comparing with present retail price.

We will not take time to try to find other quotations on this sheet but do surmise that there are probably offers of the sheet at less than \$3.00 from various other sources. It is up to the collector who wants to buy to find the best price. He is not in any way obliged to pay top prices for any such material.

THIS 'N' THAT WITH THE TRADE

Leonard Salmon, as you may have noted by his ads in this paper, is back on the job after a period in the armed services. We have word that several more are getting their stocks straightened out and will be going full blast soon...Speaking of ex-service-men doing a grand job in the stamp trade these days, David C. Van Voorhis is another....

A lot of auctions are big news this year. This issue carries news of the Judge Levis collection to be offered by H. R. Harmer, and announcement by Mercury Stamp of their forthcoming sale of France, Portugal and Spain with offices and colonies. The Grace Stamp Company (see ad) tells us that their sale includes one of the finest collections of French cancellations offered this year as well as some nice German. And that's a honey of a catalogue Lambert W. Gerber put out for the Roberts Collection sale of March 28-29; some really handsome U. S. material. Looks like something for everyone!...

Warren W. Scholl, who has been specializing in U. S. for sometime and is well known to a number of New York dealers, a caller at the office in Sidney this week...D. Friedman, one of our favorite people, tells us he still is getting orders on an item we priced incorrectly about 5 or 6 weeks ago and now he would like to buy the same set at well over that listing. If you have any Malta Coronations to sell, please contact Mr. Friedman. (Does that help square things up, Mr. F.?)

NATIONAL STAMP SALES
 276 WEST 42nd STREET
 NEW YORK 18, N. Y.

Second Roosevelt Stamp Collection Sale Scheduled For April 1st. and 2nd.

H. R. Harmer, Inc., international stamp auctioneers of 32 East 57th Street, New York, announce that the second and final sale of the stamp collection of the late Franklin Delano Roosevelt will take place on April 1st and 2nd. The first portion of the collection sold by Harmer's on February 4th and 5th reached a total of \$134,500, far in excess of the appraised value of \$80,000, or of the auctioneer's original estimate for the entire collection.

The second sale contains stamps of the whole world, excluding the United States and Latin American countries already sold. Mr. Bernard Harmer, the auctioneer, stated that he did not expect the same excitement that was attached to the first sale as the second sale contains less of the autograph element, which caused so much excitement in the first. Mr. Harmer added that this portion contains more material of a truly philatelic value.

In all there are 778 lots, of which 188 lots comprise stamps which were given to the late President by philatelists from all over the world. Among these are collections of Belgium, Bulgaria (from George Earle, then Minister

to Bulgaria), China (from Generalissimo Chiang Kai-Shek, in 1941), Czechoslovakia, Denmark (from the director of the Danish Post Office), France, Free French (in an attractive album with a notation in the President's handwriting "A personal present from a friend among the Free French in London"), Norway (from the Philatelic Society of Oslo), Portuguese Colonies, Russia (from Maxim Litvinoff), Sweden, Vatican City (several small collections from the Apostolic Delegate to the U. S. and others), Canada, Cape of Good Hope (a collection of envelopes used before postage stamps came into being), Great Britain, etc.

The late president's general collection occupies 409 lots and contains stamps of practically every country or state that ever issued stamps. This collection originally occupied over 50 albums and

all the stamps contained in these albums were mounted by the late F. D. R. Most of the sheets on which the stamps are mounted bear notations in F. D. R.'s handwriting.

There are 80 lots of Hong Kong stamps. This was undoubtedly the President's favorite collection. This is clearly indicated by notations and details on the album leaves. It is equally clear that F. D. R.'s philatelic knowledge of this particular country was greater than with the others.

Among the many interesting lots

in the sale there is a German 6pg. stamp depicting the head of Himmler, of which the German authorities denied any knowledge, forgeries of the Hitler 12 pg. stamp believed to have been made for espionage purposes by the Allies, sheets of stamps printed in the mountains of Yugoslavia by the Chetniks under General Mihailovic, a "skull and crossbones" stamp sent to next of kin in Germany by the Allies for purposes of demoralization, etc.

H. R. Harmer, Inc., will conduct the final sales of this fa-

mous collection in the Parke-Bernet galleries, 30 East 57th Street, New York City. The souvenir catalogue of this part of the collection is now ready and is priced at \$1.50. Catalogues of the previous sale are still available.

lifts the curtain of secrecy regarding their locations. He must have been a dealer! It seems the true knowledge of matters Army Postal is not widespread.

I served with two postal outfits in the U. S. and in the ETO and I think I can enlighten you some without getting Uncle Sam on my trail. In passing, let me state that the "Blue Star Commandos of the APO," though much maligned, did do a good job, and that most delays were caused by the need of hiring British, French and other civilians. I could tell you stories,

but you wouldn't believe them anyway.

To get on with the story, in most instances APOs are operated by an outfit whose number is the same as the APO number. That is, the 121st Army Postal Unit operated APO 121. Now whenever they moved, there was temporarily no APO#121. When they began operating again, even though in another city in another country, that city or town became APO 121. APOs were also located in maneuver areas in California, Arizona, etc., and employed the same numbers which were used in England, France, Belgium, etc. Therefore, no collector can say "Here are my covers from APO 11111, in London, England." He can also go crazy specializing in APO 11111 trying to get one for every month. For instance here is a rarity. . . A cover postmarked APO 407, July 4th, 1944. If you've got one, it's a fake.

Because the Army thought it wise to change the APO number of all the troops in a specified area except those who operated the APO, it has complicated matters for the APO cover collectors. It seemed silly to us. There were, 13 men watching 40,000 others write home to tell the folks that the new number was such-and-such, while we didn't have to change ours. But we won the war anyway.

APO numbers were, in a way superfluous, but I'd better not say anything about it, or I might start something.

So for the above reasons I doubt whether we are ever going to get the government to tell us where the APOs were. It would take a lot of research, pouring over tons of special orders to find out where and WHEN APO 11111 was during the war. No, I don't think they'll be able to do it for even so good a friend as the American Philatelist. It would be a big job, and it wouldn't put a cent in the treasury.

Since the coming of Linn's Weekly Stamp News to Sidney, Ohio, there has been a steady and noticeable increase in Philatelic interest and activity in this town of about eleven thousand people. John Foster, postal clerk has customers who ask for blocks of each new stamp as issued. Recently an effort was made to organization with twenty-one charter ganize a Philatelic Society in Sidney and the result is an organization showing for a town of this size. Ralph Given has been elected president; Ernest Doak vice president and Mrs. L. F. Turley, secretary; with Forest Weller, treasurer. Meetings are to be held on the first Thursday evening each month in the rooms of the city council in the city building at 8:00 p. m. All collectors in this area are invited. A junior group is also planned as well as a younger group from youths in the Youth canteen.

What would you collect if your Precancel Collection was destroyed by fire?
Several times have I been asked that question and my answer has annoyed certain parties. Of course I would continue to collect Precancels, but outside of my Bureau Print collection I think I would collect printed City Type Precancels only. Now please don't get me wrong that I am in any way belittling the handstamp precancel, because there are many scarce and attractive handstamp precancels but there is one very definite line at that point and I feel that would be a good place to stop. Here is some more words that perhaps some dealer and collectors won't like. If more emphasis had been placed on the printed precancel and less on the handstamp a long time ago there would be less favors, and unnecessary precancels in existence today. If the fraternity wanted to, printed precancels could be rigidly controlled. It's impossible to control the unnecessary precanceling of stamps in the handstamp field. Its too long a story to tell you why, listed in the early catalogs and

no attention given to the varieties and why not, but it's true. I think if only the illustration of the type of Handstamp Precancel had been that existed, the de-emphasis would have been for the better. ANNOUNCEMENT

UNIT SYSTEM ALBUM PAGES

FORMERLY CALLED "LINPRINT UNIT SYSTEM PAGES"

After locating our business in Sidney, we proposed to discontinue stocking these popular pages but to continue each year and make new pages for stamps of the year just past in order that those who had purchased the pages in the first place might have new pages each year to keep their albums up to date.

There has been such a tremendous demand and request from old customers that we again reissue and stock all of these pages that we have determined to do this and therefore announce that as soon as we can get the work done by the printer we will a fered from Columbus. These pages will be in the 8½ x 11 inch size for three ring binders only.

The first pages to be reprinted will be the pages for Commemorative singles, then for Commemorative blocks of Four. The first printing of these pages will consist of all pages up to and including the stamps for the year 1940 as that is where we left off at Columbus. Pages for stamps of 1941, 1942, 1943, 1944 and 1945 will be offered in separate units.

Do not send any orders for any of these until we are able to offer and announce their publication in the paper as we will be uable to determine a price on these pages until the work is completed.

PAGES FOR STAMPS OF 1944 BEING REPRINTED

Some weeks ago we sold out of all 1944 pages, that is pages for the stamps of 19-44. Orders have continued to pile in to such an extent that we are now reprinting these 1944 pages, the set of seven for singles and blocks will be ready soon and are offered at 50c postpaid. Orders will be accepted now for delivery when ready and to those who have orders with us for these pages we only ask a bit of patience as orders will be filled as soon as the pages are available from the printers. One set 50c; two sets 90c; three sets \$1.25 postpaid.

PAGES FOR STAMPS OF 1945 IN PREPARATION

It has been immensely difficult to determine what stamps must be included in the pages for 1945 since many of the A. M. G. stamps used abroad have been difficult to obtain and we have only recently been able to determine which stamps should be included in the 1945 page set. As yet we have not been able to get these printed altho the copy has been prepared and there will be more than 20 pages in this group, Just as soon as we can have the work completed we will an-ounce these pages with prices and accept orders.

PAGES FOR STAMPS OF 1941-1942-1943

As soon as possible we will have pages for these stamps reprinted and offer in lots as originally offered. Watch the paper for final announcements on these pages but hold your orders until they are announced ready for delivery.

LINN PHILATELIC PRODUCTS

SIDNEY, OHIO, U.S.A.

PLEASE NOTE—The difficulties of doing business of this type today are almost enough to give one a headache. It is difficult to get paper in sufficient quantity, difficult to get a printer to get the work done promptly and then almost impossible to obtain suitable carton board and packing board to wrap and pack the material so it will reach you in good condition. We must all be patient through this present period.

New Book To Expose Stamp Racketeering

Review by Harry Weiss

The year 1947 will mark the introduction of the first regularly issued stamps of our government with its one hundredth anniversary.

Our regular first stamps were issued in 1847, and collectors were even then active in this great hobby of ours, because just seven years previously Great Britain had given to the world the first adhesive postage stamp the dignified and beautiful "Penny Black." For a short time Britain used black ink in the cancellation of this stamp, but soon found it necessary to change to a red, for even in those early days it was quickly learned that fakers could easily clean a black cancellation from a black stamp and use it again.

That is perhaps the earliest record of stamp tampering, and thereby was conceived the system of "Showing the queen in stamps" and which to philatelic fakers and forgers has attained notable heights of achievement in making easy money. It has in fact attained a high degree of perfection and has thrived because of lack of knowledge on the part of collectors and many dealers. It has indeed become the bane of the philatelist's existence.

Innocently have victims been made of stamp collectors and dealers, and today stamp racketeering is really BIG BUSINESS and with multiple angles.

Although much has been written upon the subject, yet like other highly technical studies, only a protracted study in lieu of a university course may be relied upon to materially assist the serious philatelist, and of course there are no university sessions available upon this really complicated subject. But experience while a really great teacher may be relied upon to impart a thorough knowledge the course is overly long and decidedly expensive, and it is probable that the lessons will be learned the hard way.

Great books have been written on the joys and the pleasures of that greatest of hobbies "Philately" but it is the book that reveals what is going on in the shadows that may be counted upon to assist the philatelist through the maze of fakery that has been woven across his path, and his being fortified with caution is bound to make his interest in philately the richer.

For years I have been after philatelic fakers, and have endeavored to expose each racket as

it was brought to my attention. Many a faker discovered that he was "hot" and following these exposures usually came a cooling off period until things quieted down. Soon he would reappear with a greatly improved product, and the vicious cycle would again start. My files are filled with various complaints and many volumes could be written about them.

This is one such book, and it follows a fine predecessor by the same author and titled "So You Want To Invest In Stamps" which in revised and enlarged form is now going into its second large edition.

Having studied the original manuscript of "What Price Philately" I give it my blessings. It may be disapproved by some, but these in all probability will be those readers who may have axes to grind, or who in some degree or manner are interested in philately's less upright angles.

The author C. Ellis Milbury has accomplished much in his commendable task of data compilation and only years of experience can account for his thorough knowledge of his subject. Much of his

writings reflect the basic complaint subject which repose in my personal files and which Mr. Milbury has never seen.

Philatelists should be grateful to writers who expose stamp racketeering. Our great hobby must not be impaired or defiled by those who would contaminate it with their phony material. Our hobby is built upon confidence and as such it must be maintained. It is to help in preserving this confidence that books like this are written, for it is based upon facts that are correct, and after all that is what really counts.

Let stamp collectors inform themselves by reading up on every book that they can acquire upon the subject of "Philatelic Rackets." Knowledge is light, and light is something that racketeers and other types of vermin cannot face or endure.

Truly it has been said that "The man who admits that he is dumb today is wiser for it tomorrow." I too learned the hard way, and it may be said with impunity that I still have much to learn about stamp rackets.

It is books such as this, and

written by such veterans as Mr. Milbury that will do much to overcome that complex.

FRANKLIN DELANO ROOSEVELT

Gimbels is proud to offer selected material from the collection of the late President Franklin Delano Roosevelt. When the first half of this renowned collection went on public sale interest was tremendous, and stamps and covers were eagerly bid for. Everybody wanted at least one item from the collection but few were able to secure anything.

This is easily understandable. President Roosevelt as a man and as a leader was beloved by millions of Americans; he was the first President of the United States to be elected to office four times, and he had just led this country through a war that embraced Africa and Europe, the Pacific and the Atlantic.

His activities as a stamp collector—even during the troublesome years of war, were widely known. Even at the time of his sudden death at Warm Springs, Ga., he had stamps with him, and discussed his active interest in them. He was the No. 1 stamp collector in this country, and no one, regardless of party affiliations, will deny that his interest in stamp collecting attracted thousands upon thousands of new enthusiasts.

Gimbels Famous Stamp Department, by heavy bidding at the first Roosevelt sale, is now able to offer to its friends some of the material "ex Roosevelt." Naturally in many cases there is but one lot of a kind, so it's "first come, first served."

1901 Pan American complete set of large die proofs, a beautiful lot of six bicolors and a wonderful addition to any collection \$400.00
1931—Red Cross large proof on 6x8 inch proof card 200.00
1927—Lindbergh small die proof, also the only one known 600.00

Ecuador 1942—Amazon Commemoration issue. 7 stamps, unused 5.00
Ecuador 1943—Visit of President del Rio. Complete set of 5 air-mails, unused 8.50

ROOSEVELT MEMORIAL ALBUM

To the hundreds of collectors who have written us for further details, we are pleased to say that the Roosevelt Memorial Album is progressing nicely. Mr. A. S. Arnold, noted philatelic writer, is busily engaged in its preparation; is interviewing noted people in public life who knew the late president and his love for stamps; meeting with post office officials; noted collectors—all to bring you an album you'll be proud to own—an album which will be a fitting tribute to our late, beloved president.

Mr. Arnold tells us the album will be ready in April. This album will provide spaces for all of the stamps issued by this country and other nations of the world in his honor.

Gimbels Stamp Departments will accept reservations now, filling them in order of receipt.

UNITED STATES SHEETS

Gimbels Stamp Departments are proud to be able to offer an excellent range of mint United States sheets. While the following list represents only a part of Gimbels stock, it must be remembered that, in some instances, there is but one sheet of a kind and requests must necessarily be filled in the order received.

These sheets are all unused, with full gum, and intact with plate numbers (and imprint, in the case of early sheets) as issued by the post office.

THE FIRST POSTAGE STAMPS OF CAMPIONE
 Continued From Page 1
 pions and put on sale for postal use. This issue consisted of 5 values in Swiss currency, namely of 5, 10, 20, 30 rappen and 1 franc, perforated 11½, printed in sheets of 25 stamps each with a single type "coat of arms of Campione." The Campione-territory is an Italian "enclave" existing on Lugano Lake, which means that this Italian territory is entirely surrounded by Switzerland.

The amount of stamps printed for this first issue was based on what was supposed to be sufficient for normal postal use in the post office of Campione for a period of a few months, as there was already the programme of making a definitive pictorial issue. The printing figures of these provisory stamps are as follows:
 5 Rp. 10,000 stamps

10 Rp. 40,000 stamps
 20 Rp. 40,000 stamps
 30 Rp. 5,000 stamps
 1fr. 5,000 stamps
 The stamps were printed by Orell Fussli of Zurich (specialized printing firm which had already printed the famous Swiss stamps "4" and "6" of Zurich in 1843). The plates, essays, designs etc were destroyed by written authority on April 20th, 1944. It is therefore impossible that rubbish, imperforate stamps, etc., can be made in the future.
 On June 23rd 1944 new stamps of the same type, same colours and values were put on sale at the Campione post office. The "official reprint" issue is distinguishable from the first one by a less "finished" look; the characters are thinner, the colours stronger and the perforation is 11 (instead of 11½). The impression was made with new plates and the perforation with a new machine. The difference is plainly noticeable, if one observes two different sheets together. In the first emission the holes are larger and they are closer together.
 This new emission was ordered by the Swiss Post Direction of Berne from the same firm, from which I received on March 19, 1945, the following answer to my letter: "For the second issue we had to make new plates as the first ones were destroyed on the 20th of April, 1944. For the perforation a new perforating machine was used."
 The quantities printed for this second issue on June 1944 were as follows:
 5 Rp. 75,000 stamps
 10 Rp. 75,000 stamps
 20 Rp. 75,000 stamps
 30 Rp. 75,000 stamps
 1 Fr. 40,000 stamps

Varieties
 As in most stamp issues, specialists have found varieties such as printing defects. The principal ones are as follows:
 (1). On the 20 Rp. stamp of the first issue (perf. 11½) we find a "retouch" on the 15th stamp of the sheet (occasioned by cleaning the final plate). In the second issue we note on the same place a marked line (printing defect) instead of the "retouch." This is due to the fact that the original matrix was not corrected, according to arrangements of the Swiss P. T. T. Direction of Berne that forbade any changes in relation of the original printing. The intention of this order was to avoid the slightest difference between the stamps of the first and second issue. But the authorities overlooked the fact that the workman had retouched the final plate of the first issue.
 (2). In the 1 Fr. value, we find on the 16th stamp of all sheets a broken T in the word "Italian." It is an error of printing that can be put on the same plan as the broken "E" in the word "Helvetia" in the Swiss stamp of 1.20 Fr. S. D.

 This variety can be found in both (first and second) issues all ways in the same spot. This is easily explained considering that the defect was not noticed by the workman in the first plate (matrix) and consequently not corrected in the second plate that was used for the impression.
 (3) In the 1 Franc value we find a very interesting variety in the arabesque adorning the stamp. This variety does not appear in the second issue because the fault was not on the original plate (matrix); it happened during the making of the plate for the first

THE FIRST POSTAGE STAMPS OF CAMPIONE

Continued From Page 15

issue and did not happen the second time.

These very characteristic defects of printing gave me the certainty that there were two different plates, and therefore two different issues. In fact the printers confirmed my opinion as stated above.

I leave to others with greater capacity than my own the task to define and classify these postage stamps.

In the Campione stamps, the above-mentioned varieties exist once in a sheet of 25. In relation of the total issues, we have:

(a) Retouch on the 20 rp. in first emission: 1600 p.

(b) Variety of print at the same spot in second emission (15th stamps without retouch): 3000 p.

(c) Variety of the one Franc, 16th stamp in every sheet: 200 pieces in first emission and

(d) 1600 in second emission.

(e) Third variety—the most interesting—explained above, 23rd stamp in the 1 Franc sheet of 25, there can only be 200 pieces in all as it exists only in the first issue perforated (11½) and does not appear in the second issue perforated (11).

Obliterations
 To start with, a simple obliterator made of two circles was used. When the second issue was put on sale, this obliterator replaced on June 23rd by a larger one bearing outline of the church of Campione and stars underneath.

It is therefore as a rule easy enough to distinguish the first issue from the second one on used stamps. It is impossible to find the first postmark on stamps of the second emission, as the first obliterator was withdrawn before putting the second issue on sale.

The first day of obliteration for the correspondence of Campione is May 22, 1944, but one finds stamps with the postmark dated on May 20th. This was done as a favour to a few persons on the first day of the sale, the famous Saturday 20th of May, when the post office was literally invaded by people wanting these stamps. Only on the next Monday was it possible to send off correspondence from Campione.

To my knowledge the last date seen on cover with the first postmark is June the 20th. The obliterator was therefore in use for one month. On the other hand one finds stamps of the first issue with the second postmark, specially the 10 and 20 Rappen values, which were used for a long time. At present the stamps of the coat of arms type are entirely sold out at the post office, but they are still valid for postal use together with those of the present pictorial emission, which can be considered as a third issue.

The stamps with a large "T" hand over-printed are pure fantasy, they have no philatelic value.

AUTHENTIC COVERS FROM PRESIDENT ROOSEVELT'S COLLECTION
Many interesting NAVAL COVERS remain from the Roosevelt Collection.
Some of these covers were cancelled on BATTLESHIPS sunk or damaged at PEARL HARBOR, while others had been cancelled by SUBMARINES, DESTROYERS, and CRUISERS lost later in the war.
Some AUTOGRAPHED covers and various AIR MAIL covers also are available.
A descriptive list will be sent upon request.

India Victory Issue

Here is a first day cover showing one of the stamps of the new India Victory issue. There are four values of identical design in the set. First day of issue was January 2, 1946. We note these are offered in the advertisement of the Robert Fulton Stamp Company in this issue.
We learn from "India's Stamp Journal" that in a competition for designs for these Victory stamps there were 203 designs received by the Director General of Posts.
Designs submitted by Edward Johangst of Bombay and by Miss Dorothy Cronan of Simla were considered of equal merit. No other design worthy of consideration was accepted and thus no prize for third place was given. First prize of 1500 Rupees was divided equally between the two mentioned above.

PHILIPPINE OFFICIAL STAMPS WITH HANDSTAMPED "VICTORY" OVERPRINT

This overprint was applied immediately after the capture of Tacloban to distinguish the stamps, secreted by the commonwealth Officials, from those in Japanese hands and to make known to all that Victory was an accomplished fact.

Long after the regular issues with this overprint were sold out, a wide awake Army Sergeant suspected that there might be some Official Stamps, so he made a tour of all the Government offices and secured everything available. There were only three different stamps, #016, 031, 037, found with the "Victory" handstamp

We offer the 2c apple green #037 and the 4c yellow green #016.
